Scan of teremok.org.ua

Scan details

Scan information	
Start time	2024-12-12T21:29:33.353460+03:00
Start url	https://teremok.org.ua/
Host	teremok.org.ua
Scan time	35 minutes, 7 seconds
Profile	SQL Injection
Server information	nginx/1.14.0 (Ubuntu)
Responsive	True
Server OS	Unix
Server technologies	PHP
Scan status	aborted
Application build	24.10.241106172

Threat level

Acunetix Threat Level 4

One or more critical-severity type vulnerabilities have been discovered by the scanner. A malicious user can exploit these vulnerabilities and compromise the backend database and/or deface your website.

Alerts details

SQL Injection

Severity	Critical
Reported by module	/Scripts/PerScheme/Sql_Injection.script

Description

SQL injection (SQLi) refers to an injection attack wherein an attacker can execute malicious SQL statements that control a web application's database server.

Impact

An attacker can use SQL injection to bypass a web application's authentication and authorization mechanisms and retrieve the contents of an entire database. SQLi can also be used to add, modify and delete records in a database, affecting data integrity. Under the right circumstances, SQLi can also be used by an attacker to execute OS commands, which may then be used to escalate an attack even further.

Recommendation

Use parameterized queries when dealing with SQL queries that contain user input. Parameterized queries allow the database to understand which parts of the SQL query should be considered as user input, therefore solving SQL injection.
